

K-STATE Research and Extension

March 15-20, 2021
Kansas State University
Hosted Virtually

Join us March 15-20 for a virtual Kansas Junior Meat Goat Producer Week. This educational event will span a week of sessions during which youth, parents, meat goat project leaders, and adults can increase their knowledge of meat goat production and management practices. Presentations and demonstrations will be provided by K-State faculty members, graduate and undergraduate students, and guest speakers. Sessions will be conducted during the week, with the program concluding on Saturday morning. All presentations will be recorded and shared with those who register, so families may participate at their own pace and as their schedule allows. The program is free this year, but all attendees will need to register using the link below.

Register Online by March 8!
