

K-STATE
Research and Extension

February 15-20, 2021
Kansas State University
Hosted Virtually

Please join us February 15-20 for a virtual Kansas Junior Swine Producer Week. This educational event will span a week of sessions during which youth, parents, swine project leaders and adults can increase their knowledge of swine production and management practices. Presentations and demonstrations will be provided by K-State faculty members and graduate students, as well as guest speakers. Sessions will be conducted during the week, with the program concluding on Saturday morning. All presentations will be recorded and shared with those who register, so families may participate at their own pace and as their schedule allows. The program is free this year, but all attendees will need to register using the link provided below.

Register Online by February 8!
